

MEDICAL CLEARANCE DISCLAIMER

This program involves direct contact with vulnerable individuals. Students must obtain a Vulnerable Sector Screening before they start a placement or practicum.

The screening involves a Medical Report. This medical report can take up to four weeks or longer if further vaccinations are required.

If you are unable to submit the required medical report within 2 months of commencing the program, you risk:

- being unable to begin a placement or continue a placement
- being unable to graduate
- being unable to receive a partial refund or no refund of tuition, depending on when I withdraw or am expelled from this program

It is a good practice to get the results before the training program begins to ensure that you can complete a placement or practicum and graduate.

If you choose to begin the program before you have the results, please plan your time so that you can receive the report before applying for a placement or practicum. If you start the program and do not receive the report, you risk being ineligible for a placement or practicum, and you may not be able to graduate. Tuition and fee refunds may be affected.

STUDENT ACKNOWLEDGEMENT

I, _____ (print full name) acknowledge that I have read the above disclosure and understand that I must obtain and submit an up-to-date immunization report while enrolled in the program before placement. If I do not submit the report in time I will be unable to graduate and may be ineligible for a refund.
